

Junhyoung Chung

Krafton Inc., Yeoksam Center Field 231, Teheran-ro, Gangnam-gu, Seoul, Republic of Korea

[junhyoung0534 \(at\) gmail \(dot\) com](mailto:junhyoung0534@gmail.com) | <https://junhyoung-chung.github.io/> | [My Google Scholar profile](#)

Research Interests

Representation learning, reinforcement learning, optimal transport, graphical models

Education

Seoul National University, M.S. in Statistics 03/2024 – 02/2026

- Advisor: [Gunwoong Park](#)
- Thesis: Learning anchored linear structural equation models in the presence of data contamination: Utilization of frugality and geometry-faithfulness

Seoul National University, B.S. & B.A. in Statistics & Economics (double major) 03/2018 – 02/2024

- *Summa cum laude*
- Completed mandatory military service as Squad Leader, Republic of Korea Army (09/2019 – 04/2021).

* indicates the first author, and † indicates the authors who contributed equally.

Ongoing Work

Convex distance operator transport: A convex and geometry-preserving formulation 04/2026

Junhyoung Chung^{*}, Euijong Song, Wonhwa Kim, Gunwoong Park

Accepted at ICML 2026

Publications

Prediction of high-risk mountain accident areas using a Hurdle model (Written in Korean) 08/2025

Junhyoung Chung^{*}, Sungjin Lee, Gunwoong Park

In *Korean Journal of Applied Statistics*, 38(4), 531-551, [10.5351/KJAS.2025.38.4.531](#)

Discovering causal structures in corrupted data: Frugality in anchored Gaussian DAG models 08/2025

Joonho Shin[†], *Junhyoung Chung*[†], Seyong Hwang[†], Gunwoong Park[†]

In *Computational Statistics and Data Analysis*, 213, 108267, [10.1016/j.csda.2025.108267](#)

Learning distribution-free anchored linear structural equation models in the presence of measurement error 12/2024

Junhyoung Chung^{*}, Youngmin Ahn, Donguk Shin, Gunwoong Park

In *Journal of the Korean Statistical Society*, 1-25, [10.1007/s42952-024-00298-9](#)

Horse race rank prediction using learning-to-rank approaches (Written in Korean) 04/2024

Junhyoung Chung^{*}, Donguk Shin, Seyong Hwang, Gunwoong Park

In *Korean Journal of Applied Statistics*, 37(2), 239-253, [10.5351/KJAS.2024.37.2.239](#)

Research Experience

Research Assistant, Department of Statistics, Seoul National University 06/2023 – 02/2026

- Graphical models
 - Developed consistent algorithms to discover latent DAG structures with contaminated data.
 - Extended nonparanormal graphical models to accommodate symmetric distributions by leveraging convex ordering.
- Optimal transport
 - Proposed a novel formulation of geometry-preserving convex distance operator transport (CDOT), bridging feature-based and structural alignment in the fused Gromov–Wasserstein setting.

- Applications
 - Integrated a grid-based spatial model and a Hurdle model to predict mountain accidents.
 - Introduced learning-to-rank approaches to predict rankings in horse racing.

Industry Experience

Research Intern, Foundation Model Research Team, Krafton

03/2026 – present

Projects

Korean National Fire Agency, The central administrative agency of South Korea responsible for firefighting affairs

08/2024 – 12/2024

Healing Paper, Online cosmetic surgery matchmaking platform in South Korea

09/2022 – 12/2022

Loadcomplete, Mobile game studio in South Korea

07/2022 – 08/2022

LaundryGo, On-demand laundry service platform in South Korea

03/2022 – 06/2022

Teaching Experiences

Seoul National University

Teaching Assistant, Core Computing: Thinking with Computers

Fall 2024, Fall 2025

Teaching Assistant, Statistics

Fall 2025

Teaching Assistant, Statistics Lab.

Spring 2024

Teaching Assistant, Basic Computing: First Adventures in Computing

Spring, Fall 2023

Talks

Learning distribution-free anchored linear structural equation models in the presence of measurement error, *Korean Statistical Society Conference*

06/2025

Discovering causal structures in privacy-protected and noisy data: Frugality in anchored Gaussian DAG models, *Korea-Japan Joint Symposium of Statistics and Data Science*

11/2024

Learning distribution-free anchored linear structural equation models in the presence of measurement error, *Joint International Seminar in Collaboration with Kyushu University*

07/2024

Awards and Honors

Outstanding Teaching Assistant Award, *Seoul National University*

12/2025

Presidential Science Scholarship, *Korea Student Aid Foundation* (Field: Math)

03/2025 – 02/2026

Research Scholarship, Basic Science Research Program, *National Research Foundation of Korea*

09/2024 – 09/2025

3rd Prize, Online Overseas Volunteer Program Contest, *Korean University Council for Social Service*

03/2022

Undergraduate Scholarship, *Ilju Scholarship Foundation*

09/2018 – 02/2024

Skills

- **Programming:** Python, R, LaTeX
- **Language:** Korean (native), English (fluent), Japanese (conversational)
